BRUCE RAUNER, GOVERNOR

LISA BONNETT, DIRECTOR

ILLINOIS EPA NO.: 1150155136

USEPA NO.: ILD984791459

NOTICE NO.: UIC-01-15

LOG NO.: UIC-143-M-7

DATE: April 9, 2015

PUBLIC NOTICE UNDERGROUND INJECTION WELL PERMIT TERMINATION for Archer Daniels Midland Co. (ADM), Decatur

The Illinois Environmental Protection Agency (EPA) hereby gives notice of intent to terminate the Class I Underground Injection Control (UIC) permit held by Archer Daniels Midland Co. (ADM) of Decatur. The facility's address is 4666 Faries Parkway, Decatur, Illinois. ADM now has two UIC permits governing its carbon capture and sequestration Well No. 1 (CCS 1) which injected compressed carbon dioxide (CO₂) deep underground: a Class I UIC permit issued by Illinois EPA several years ago and a Class VI UIC permit recently issued by U.S.EPA. The well's originally permitted CO₂ injection volume has been reached and the Illinois EPA permit is no longer necessary; post-injection operation of the well and ancillary equipment is being conducted under requirements of the Class VI permit designed by U.S.EPA for this type of injection well.

Interested citizens are invited to review copies of ADM's permit termination request and Illinois EPA's draft permit termination and technical fact sheet at the following location:

Reference Desk, Decatur Public Library
130 N. Franklin St.
Decatur, IL 62523

Written comments will be accepted from the public for 30 days. Please send all comments to the contact listed at the end of this Notice, postmarked by **midnight May 11, 2015**. In response to a significant degree of public interest or in order to clarify one or more issues concerning the draft permit termination, a public hearing may be held. Requests for a public hearing must be made in writing and must state the nature of the issue(s) to be raised at the hearing. Written requests should be sent to the contact listed below. Public notice will be issued at least 45 days before any hearing.

All comments submitted will become part of the Administrative Record (AR) and will be evaluated by Illinois EPA in making the final permit decision. The Agency will respond to comments on the draft permit termination, and indicate whether additional documents have been included in the AR. Anyone who submits written comments will be notified of the final permit decision and the permit decision appeal process.

The permit termination request, draft permit termination, related information and all data submitted by the applicant, as part of the AR, are now available for public inspection Monday through Friday between 9:00 a.m. and 5:00 p.m. by appointment only. Please contact:
